- Initiated the development of **India's first-ever National e-Commerce Policy** to address the evolving digital marketplace.
- **Implemented a modern Intellectual Property Rights (IPR) policy** to enhance India's IPR regime, fostering innovation and creativity.

Union Minister of Railways

2014- 2017

Safety Improvements:

- Launched the **Rashtriya Rail Sanraksha Kosh (RRSK) fund** to enhance **railway safety** by eliminating unmanned level crossings and implementing modern signaling systems.
- **Introduced new safety measures and technology upgrades** to reduce accidents and improve passenger security.

High-Speed Rail Development:

- Advocated for the development of high-speed rail corridors in India to bring world-class train travel to the country.
- Initiated feasibility studies and partnerships for high-speed rail projects, including the **Mumbai-Ahmedabad High-Speed Rail Corridor**.
- Introduced new train services, including **Train 18, Tejas Express and Humsafar Express**

Station Redevelopment:

- Launched the ambitious "**Station Redevelopment**" program to modernize and upgrade railway stations across India.
- Attracted **private sector investment** for station redevelopment through public-private partnerships (PPPs).

Cleanliness and Hygiene:

- **Launched the "Swachh Rail Swachh Bharat Abhiyan"** to improve cleanliness and sanitation on trains and at railway stations
- **Introduced the "Clean My Coach" initiative** to enable passengers to request clean coaches through SMS or a mobile app.

Digital Initiatives:

- Promoted digitalization of railway services and introduced various mobile apps for ticket booking, inquiry, and passenger information.
- **High-speed free Wi-Fi launched at 140+ stations** to provide internet connectivity to passengers.

Bio-Toilets:

- Accelerated the installation of bio-toilets in trains to improve sanitation and reduce environmental impact.

New Railway Lines and Connectivity:

- Worked on expanding railway network connectivity, including the development of **new rail lines and connecting remote areas**.

Freight Corridor Projects:

- Advanced the **Dedicated Freight Corridor (DFC) projects** to improve the efficiency of freight transportation and decongest existing rail routes.

Financial Reforms:

- Introduced innovative financing mechanisms to fund railway projects, including leveraging funds through partnerships and non-budgetary resources.

Green Initiatives:

- Promoted **eco-friendly initiatives**, such as the use of **solar energy in railway operations and LED lighting at stations**.

Customer-Centric Approach:

- Prioritized **passenger feedback** and actively engaged with the public through **social media** to address concerns and improve services.
- **Introduced VIKALP**, Alternative Train Accommodation System (ATAS) to provide confirmed accommodation to waitlisted passengers.
- Focused on enhancing passenger amenities, including better catering services, waiting rooms, and accessibility for differently-abled passengers.
- **Introduced Janani Sewa** to provide services to **mothers of infants**
- **Launched new catering policy**

Budgetary Management:

- Managed the railway budget efficiently and focused on fiscal discipline to ensure the financial health of Indian Railways.
- Launched innovative financing mechanisms and leveraged **non-fare revenue sources like advertising and commercialization**.

International Engagement:

- Engaged in diplomatic efforts to strengthen international cooperation in the field of railways, exploring collaborations with countries like Japan for high-speed rail projects.

Power Generation Augmentation:

- Prepared an action plan for **creating an additional capacity of 100,000 MW** to provide power on demand by 2012.
- Formulated a renovation and modernization action plan for **170 thermal power units and 35 hydro units with a total generation capacity of 14,000 MW.**

Policy Measures:

- **Introduced the landmark Electricity Bill 2001**, which provided for non-discriminatory open access in the transmission segment and mandated State Electricity Regulatory Commissions to introduce open access in distribution.
- Executed the **Accelerated Power Development Program (APDP)** to improve the operational efficiency of old generating stations through renovation/modernization and reduce transmission and distribution losses.
- **The Integrated Power Development Scheme** was launched during his tenure to strengthen the distribution and sub-transmission systems in urban areas. It aimed to reduce technical and commercial losses, improve billing and collection efficiency, and enhance the reliability of power supply in cities.

Rural Electrification:

- Played an instrumental role in **preparing a 7-year Action Plan** for Rural Electrification to complete the electrification of all villages in the country.
- Set up credit support from the Rural Electrification Corporation to State Electricity Boards for the speedy electrification of **Dalit bastis, households of scheduled tribes, and other weaker sections of society.**

Encouraging Investments:

- **Encouraged FDI** in transmission through two routes: Joint Ventures and through the Independent Power Transmission Corporation.
- **Amended the Indian Electricity Act, 1998**, to enable private sector participation in transmission.

Distribution Reforms:

- **Prepared a holistic six-level intervention strategy** for distribution reforms in the power sector and the strengthening of State Electricity Boards.
- On the commercial front, took action to ensure tamper-proof meters, operationalized energy accounting, and implemented a **decentralized computerized billing system**.

Sustainable Power Development:

- Set up a **Special Purpose Vehicle (SPV)** to undertake afforestation and implement stipulated environmental measures.
- Took steps to enhance the use of **fly ash products in government infrastructure projects**.

Union Minister of Chemicals and Fertilizers

1999- 2000

Fertilizers:

- Instrumental in preparing a **long-term fertilizer policy** that would chart the future course of the fertilizer industry by involving all stakeholders.
- **Set up joint ventures** with countries having reserves of Potash, marking a new chapter in India's quest for self-sufficiency.

Chemicals:

- Prepared a bill on **Chemical Weapons Conventions**.
- **Set up separate environmentally friendly Chemical Estates** for the chemical industry.

Pharmaceuticals:

- Played a pivotal role in formulating a **new drug policy** with an emphasis on encouraging competition while ensuring an adequate supply of drugs at affordable prices for the people.
- Proposed raising the automatic approval limit for the **pharmaceutical sector from 51% to 74% to increase foreign direct investment (FDI)**.

Petrochemicals:

- Played a proactive role in the early commissioning of key **infrastructure to improve the country's self-reliance in petrochemicals**.

Union Minister of Environment and Forest

1998- 1999

Prevention and Control of Pollution:

- Played a key role in the preparation of a comprehensive **National Environment Action Plan**.
- **Introduced 100% centrally funded schemes** for reducing pollution in 22 major cities of India.

Environment Clearances:

- Streamlined procedures for **environmental clearances and introduced transparency** by making all works related to environment and forest clearances available on the Internet.
- Issued notifications to make **Environmental Impact Assessment compulsory for 29 developmental activities**.

Legislative Initiatives:

- Played a crucial role in the preparation of a **draft Biological Diversity Act for conservation.**
- Finalized the **Hazardous Waste Management Rules, Solid Waste Management Rules, and Biomedical Waste Management Rules.**

Conservation of Natural Resources:

- Prepared a detailed **action plan for achieving a 33% forest cover** in the country.
- **Established the National Committee** for the identification of Eco-sensitive zones.
